Unscripted Success: Building Better Teams Through Improv
Location: Cedar Lake Room
<i>Facilitators, Danger Boat Productions (Limit: 40 participants)</i>
Take the energy and insight from the keynote one step further in this interactive breakout led by facilitators from Danger Boat Productions. Designed for ASC leaders and team members alike, this session dives deeper into how improv principles can help teams navigate real-world challenges—whether it's managing tough conversations, building trust, or adapting in the moment. Through hands-on exercises, group discussion, and a healthy dose of humor, you'll gain practical tools to strengthen collaboration, boost morale, and lead with confidence through change. |

9:40—10:40 AM

From Burnout to Balance: Mindfulness in Real Time

Location: Lake of the Woods Room

Hannah Dufek, Director of Clinical Services, CARE Counseling

In the fast-paced world of healthcare, stress is unavoidable—but it doesn't have to be unmanageable. In this session, licensed therapist Hannah Dufek from CARE Counseling introduces participants to Mindfulness-Based Stress Reduction (MBSR), a research-supported method for reducing stress, improving focus, and building emotional resilience. Through guided mindfulness exercises and practical takeaways, attendees will learn how to bring a greater sense of calm and clarity into their workday—whether supporting patients, teams, or themselves. No prior experience with mindfulness is required. Come as you are and leave with tools you can start using right away.

H2-Oh No! Preventing Instrument Damage from Water Impurities

Location: Lake Minnetonka Ballroom

Angela Ritchey, Clinical Education Specialist, STERIS

Beneath the surface of every reprocessing cycle lurks an invisible threat: water impurities. Left unchecked, these contaminants can corrode instruments, compromise sterilization, and create costly damage that haunts your sterile processing department. Learn how to recognize the telltale signs of water-related damage and distinguish them from residual soils. Explore best practices for protecting instruments from the slow creep of impurity-related harm—and the critical role technicians play in keeping water quality crystal clear. Leave with actionable tools to preserve your equipment, ensure patient safety, and keep your SPD free of costly surprises.

10:40—11:10 AM

Exhibitor Fair & Wellness Break

Grab a snack and connect with vendors about products and services that can help meet your ASC's needs. Figure out which fun facts match up with their company on your scavenger hunt card!

Breakout Session: Best Practices for Reducing the Risk of SSI's Using an Infection Prevention Bundle

Location: Cedar Lake Room

Melissa Kelly, BBA, BSN, RN, CNOR, Medical Liaison, Solventum

Preventing surgical site infections requires a smart, integrated strategy. This session explores how ASCs can enhance patient safety and improve outcomes through a comprehensive preoperative patient prep bundle. Covering key interventions such as nasal antiseptics, skin preparation, and prewarming protocols, participants will learn how each element contributes to infection prevention. Real-world case studies will highlight successful implementation strategies, workflow integration, and measurable benefits. Attendees will leave with actionable insights and practical tools to standardize prep practices, support staff training, and ensure patients enter surgery with the best possible protection.

Roundtable Exchange: Navigating Uncertain and Challenging Times

Location: Lake Minnetonka Ballroom

Join fellow ASC leaders and subject matter experts for an interactive, solutions-focused roundtable session tackling some of the most pressing issues facing surgery centers today. This dynamic format includes four 20-minute small-group discussions, each led by a facilitator who will pose key questions, share insights, and encourage peer-to-peer exchange.

Discussion Topics:

1. **AI-Driven Innovations Transforming Patient Care**

Gopal Khanna, Chairman and Senior Fellow, Health AI Institute

Ikram Khan, Managing Director, Health AI Institute

Explore how artificial intelligence is reshaping patient engagement and care delivery.

2. **PFML Planning: Managing Employee Leave**

Nels Dyste, Vice President, Dyste Williams

Ted Dyste, President, Dyste Williams

Discuss how ASC employers are navigating Minnesota's new Paid Family and Medical Leave (PFML) law and learn how private plan options can reduce disruption and simplify administration.

3. **Staffing the Critical Roles on Your ASC Team**

Dan Solomon, Dual-Training Pipeline Manager, MN Dept. of Labor & Industry

Kathleen Gordon, Dual-Training Pipeline Workforce Consultant, MN Dept. of Labor & Industry

Identify recruitment and retention strategies for hard-to-fill positions like surgical techs, sterile processing staff, and rad techs. Learn about pipeline programs and training partnerships, and explore creative hiring approaches.

4. **Mitigating Tariff Turbulence and Supply Chain Disruptions**

Robert Mayhew, Vice President Supply Chain, Simply Supply

Representative TBD, Simply Supply

Unpack how global tariffs and supply chain volatility are affecting ASCs—and exchange strategies for mitigating risk, managing inventory, and maintaining operational continuity.
