

## 2020 Annual Conference

### Objective Statements

**THURSDAY**

**Full Sessions**

#### **Is Your Minnesota ASC Ready for a DEA Inspection?**

**Speaker:** Dennis Wichern, Retired DEA Agent

**AEU Category:** Regulatory & Legal Issues

**CAIP IPCH Category:** Surveillance, Data Collection and Analysis

**Objectives:**

- Define DEA's specific authorities and role in relation to controlled substances and the practice of medicine.
- Identify important controlled substance recordkeeping requirements and techniques to prepare for a DEA audit.
- Recognize practical strategies and tips to reduce opioid risk at your ASC while complying with federal law.

#### **AORN's Surgical Attire Guideline Update 2020**

**Speaker:** Lisa Spruce, Director of Evidence Based Perioperative Practice, Association of Perioperative Registered Nurses

**AEU Category:** Quality Management

**Objectives:**

- Identify what's new and what has changed in the surgical attire guideline.
- Describe the new evidence rating model.

- Explain the new layout for the guideline documents.

## **Creating a Leadership Culture**

**Speaker:** Amy Klugherz, Primary Consultant, Forward BPC

**AEU Category:** Human Resources, Quality Management

**Objectives:**

- Understand leadership
- Mindfully create a leadership culture
- Grow confidence in and appreciation for giving feedback
- Evaluate your hiring to make sure you are attracting people with a leadership mindset
- Unleash the impact of the individuals on your team

## **Changes in Minnesota Pharmaceutical Waste Management**

**Speaker:** Joshua Berman, Hazardous Waste Inspector, MPCA

**AEU Category:** Regulatory and legal issues

**Objectives:**

- Inform/educate attendees regarding ongoing changes in regulation of pharmaceutical waste management in Minnesota.

## **FRIDAY**

### **Full Sessions**

#### **AAAHC Accreditation Preparation Update**

**Speaker:** Dr. David Shapiro, MD, Board Member/Officer, AAAHC

**AEU Category:** Delivery of Patient Care

**CAIP IPCH Category:** Infection Prevention Program Development, Implementation, and Maintenance

**Objectives:**

- Learn about the reorganization of the material contained in the most recent versions of both the Medicare and Non Medicare accreditation handbooks.
- Understand the significant changes reflected in the newly released AAAHC standards; including chronology of implementation, scoring mechanisms, and revisions.

- Learn how to develop strategies geared to effectively prepare your ASC for achieving a successful outcome of your Organization's survey.
- Gain insight into suggested approaches for bringing your Facility into continuous compliance with applicable standards.

## **MDH COVID-19 Panel**

**Speakers:** Jacy Walters, Stacy Holzbauer, Amanda Beaudoin, Leslie Lovett, and Tammy Hale, Minnesota Department of Health

**AEU Category:** Quality Management

**CAIP IPCH Category:** Infection Prevention Program Development, Implementation, and Maintenance

**Objectives:**

- Identify changes to infection prevention and control guidance for preparation and response to COVID-19.

## **Fostering Resiliency: How to Pivot During the Pandemic**

**Speaker:** Dr. John Sikorski, Health and Pain Psychologist

**AEU Category:** Human Resources

**Objectives:**

- Identify the deleterious effects of stress on mental and physical health.
- Understand five strategies to ameliorate the impacts of stress to live a more robust life.
- Describe how to mentally pivot during times of stress during the pandemic to increase psychological flexibility.

## **Managing COVID-19: Past, Present and Future Implications for ASC Infection**

**Speaker:** Lee Anne Blackwell, VP of Clinical Services, Practice Partners in Health Care

**AEU Category:** Delivery of Patient Care

**CAIP IPCH Category:** Infection Prevention Program Development, Implementation, and Maintenance

**Objectives:**

- Explore the impact of the novel coronavirus COVID-19 pandemic in your ASC Infection Control Program.
- Discuss what we have learned about managing the risks of coronavirus transmission in the ASC.

- Identify changes with infection control and prevention practices related to what we have learned about COVID-19.
